

Anchor Fluid Power Acquires Maxbar Inc.

November 2, 2017- Anchor Fluid Power, a leading supplier of flange and inline valve components for the fluid power industry, announced today it has acquired Maxbar Inc located in Houston, Texas. Maxbar is the largest US distributor of Walther- Präzision products and specializes in quick connect couplings for a variety of industries including aerospace, subsea, oil & gas and automotive.

‘The acquisition will help to strengthen both companies and allow us to penetrate new markets,’ said Joe Coffaro, President of Anchor Fluid Power. ‘By integrating our resources, we will be able to improve customer service levels and delivery times to our customers throughout North America. We’re very excited to be partnering with the team at Maxbar and introducing Walther-Präzision solutions to a larger marketplace.’

Maxbar will continue operations at their 11319 Tanner Road facility. The location is on the northwest side of Houston, minutes from U.S. 290 and the Sam Houston Tollway.
